

# HOLLSTEIN

*Commercial Grade two post lift with 9,000 lb. lifting capacity, large maintenance free cylinders with low friction chain rollers, and a reinforced base plate for optimum stability. Door guards, reinforced one-piece column design, internal routing of the hydraulic lines are just a few features of this great lift. This makes our lift one of the best values in the industry.*

## Features:

- 9,000 lb. lifting capacity
- Low profile symmetric/asymmetric arms with automatically locking restraints
- Two lifting cylinders with low friction chain rollers
- Large base plates for stability
- Powder-coated paint finish
- Padded overhead shut-off bar

## SPECIFICATIONS:

Capacity	9,000 lbs
Lifting speed	50 sec
Power Pack	2hp 220vac, 1Ph
Lifting height	72" (without adapters)
With adapters	87" (fully extended)
Low pad height	4"
Height overall	142.9"
Width overall	138" (with power unit)
Width between columns	113.6"
Drive through	96"
Max load per arm	2,250 lbs
Cable Diameter	3/8"
Front & Rear Arm Reach	29" & 41" & 37-57"
Arm steel thickness	6mm
Shipping Weight	1,550 lbs
Ship Dimensions	144" L x 21-1/2" W x 43" H
